

NPIC/TSSG/RED/ATB-014-70
14 January 1970

MEMORANDUM FOR: Chief, Support Services Division, TSSG

THROUGH : Chief, Research and Engineering Division, TSSG
 : Chief, Advanced Technology Branch, RED
 : Chief, Exploratory Laboratory, ATB

SUBJECT : Cables for High Speed Isodensitracer

1. [redacted] Analysis Division/ORD/25X1
DD/S&T, informed me on 7 January of some specially fabricated heavy cables
currently stored in the ORD computer room. These cables were made by IBM
specifically for the high speed isodensitracer (IDT) currently being modi-
fied at [redacted] for installation in NPIC in the Spring 25X1
of 1970. [redacted] and [redacted] Optics/ORD/25X1
DD/S&T, agree that these cables should be transferred to NPIC as soon as
possible for future use with the IDT. [redacted] is contract monitor for 25X1
the above-mentioned [redacted] equipment. 25X1

2. It is recommended immediate action be taken to transfer the cables
from the ORD computer room to the Exploratory Laboratory at NPIC.
